## Global Entry Collection - Tile

**Construction** Global Entry is constructed with 100% virgin vinyl materials. The decorative film layer is protected by a 20 mil commercial wear layer and is coated with a ceramic-enhanced urethane, M-Force™, which is polish-optional for versatile maintenance.

**Sereno** is a tranquil approach to luxury vinyl tile, featuring a pattern that blurs the line between contemporary concrete and serene sandstone visuals. Colors are inspired by natural materials like clay and sand, evoking feelings of calm in any space. The directional pattern works with a variety of installation methods, including herringbone and right angle designs which take advantage of the large rectangular format.

Colorways available in 18" x 36" tiles

**Shikumen** elevates the cold, industrial feel of traditional concrete to a new generation of luxury vinyl tile. The all-over pattern plays homage to ancient frescoes, but offers the raw edge of a repurposed building. The energetic visual offers a non-directional option in an 18" x 36" tile and hides wear better than solid concrete visuals.
